Notes to the unaudited interim condensed consolidated statements

1. ORGANIZATION

Millicom International Cellular S.A. *(*the "Company" or "MIC SA"*)*, a Luxembourg Société Anonyme, and its subsidiaries, joint ventures and associates (the "Group" or "Millicom") is an international telecommunications and media company providing digital lifestyle services in emerging markets, through mobile and fixed telephony, cable, broadband, Pay-TV in Latin America and Africa.

On July 19, 2018, the Board of Directors authorised these interim condensed consolidated financial statements for issuance.

2. SUMMARY OF CONSOLIDATION AND ACCOUNTING POLICIES

These interim condensed consolidated financial statements of the Group are unaudited. They are presented in US dollars and have been prepared in accordance with International Accounting Standard ("IAS") 34 'Interim Financial Reporting' as adopted by the European Union. In the opinion of management, these unaudited interim condensed consolidated financial statements reflect all adjustments that are necessary for a proper presentation of the results for interim periods. Millicom's operations are not affected by significant seasonal or cyclical patterns.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2017. These financial statements are prepared in accordance with consolidation and accounting policies consistent with the 2017 consolidated financial statements, except for the changes described below.

The following changes to standards effective for annual periods starting on January 1, 2018 have been adopted by the Group:

- IFRS 15 "Contracts with customers" establishes a five-step model related to revenue recognition from contracts with customers. Under IFRS 15, revenue is recognized at amounts that reflect the consideration that an entity expects to be entitled to in exchange for transferring goods or services to a customer. The Group adopted the accounting standard on January 1, 2018 using the cumulative catch-up transition method which had an immaterial impact on its Group financial statements. IFRS 15 mainly affects the timing of recognition of revenue as it introduces more differences between the billing and the recognition of the revenue. However, it does not affect the cash flows generated by the Group.

  As a consequence of adopting this Standard:

  1) some revenue is recognized earlier, as a larger portion of the total consideration received in a bundled contract is attributable to the component delivered at contract inception (i.e. typically a subsidized handset). Therefore, this produces a shift from service revenue (which decreases) to the benefit of Telephone and Equipment revenue. This results in the recognition of a Contract Asset on the statement of financial position, as more revenue is recognized upfront, while the cash will be received throughout the subscription period (which is usually between 12 to 36 months). Contract Assets (and liabilities) are reported on a separate line in current assets / liabilities even if their realization period is longer than 12 months. This is because they are realized / settled as part of the normal operating cycle of our core business.

  2) the cost incurred to obtain a contract (mainly commissions) is now capitalized in the statement of financial position and amortized over either the average customer retention period or the contract term, depending on the circumstances. This results in the recognition of Contract Costs being capitalized under non-current assets on the statement of financial position.

  3) there are no material changes for the purpose of determining whether the Group acts as principal or an agent in the sale of products.

  4) the presentation of certain amounts in the consolidated statement of financial position has been changed to reflect the terminology of IFRS 15:

     a. Contract assets recognized in relation to service contracts.

     b. Contract costs in relation to capitalised cost incurred to obtain a contract (mainly commissions).

     c. Contract liabilities in relation to service contracts were previously included in trade and other payables

  Management identified some other not material adjustments than the ones explained above.

2. SUMMARY OF CONSOLIDATION AND ACCOUNTING POLICIES (Continued)

The Group has adopted the standard using the cumulative catch-up transition method. Hence, the cumulative effect of initially applying the Standard has been recognized as an adjustment to the opening balance of retained earnings as at January 1, 2018 and comparative financial statements have not be restated in accordance with the transitional provisions in IFRS 15. The impact on the opening balance of retained earnings as at January 1, 2018 is summarised in the table set out at the bottom of this section.

Additionally, the Group has decided to take some of the practical expedients foreseen in the Standard, such as:

- Millicom does not adjust the transaction price for the means of a financing component whenever the period between the transfer of a promised good or service to a customer and the associated payment is one year or less; when the period is more than one year the financing component is adjusted, if material.
- Millicom discloses in the Group Financial Statements the transaction price allocated to unsatisfied performance obligations only for contracts that have an original expected duration of more than one year (e.g. unsatisfied performance obligations for contracts that have an original duration of one year or less are not disclosed).
- Millicom applies the practical expedient not to disclose the price allocated to unsatisfied performance obligations, if the consideration from a customer corresponds to the value of the entity's performance obligation to the customer (i.e, if billing = accounting revenue).
- Millicom applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that Millicom otherwise would have recognized is one year or less.

The revenue recognition accounting policy applied from January 1, 2018 is as follows:

Revenue is recognised at an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer.

Post-paid connection fees are derived from the payment of a non-refundable / one-time fee charged to customer to connect to the network (e.g. connection / installation fee). Usually, it does not represent a distinct good or service, and therefore does not give rise to a separate performance obligation and revenue is recognised over the minimum contract duration. However, if the fee is paid by a customer to get the right to receive goods or services without having to pay this fee again over his tenure with the Group (e.g. the customer can readily extend his contract without having to pay the same fee again), it is accounted for as a material right and revenue should be recognized over the customer retention period.

Post-paid mobile / cable subscription fees are recognised over the relevant enforceable/subscribed service period (recurring monthly access fees that do not vary based on usage). The service provision is usually considered as a series of distinct services that have the same pattern of transfer to the customer. Remaining unrecognised subscription fees are fully recognised once the customer has been disconnected.

Prepaid scratch / SIM cards are services where customers purchase a specified amount of airtime or other credit in advance. Revenue is recognized as the credit is used. Unused credit is carried in the statement of financial position as a contract liability within other current liabilities. Upon expiration of the validity period, the portion of the contract liability relating to the expiring credit is recognized as revenue, since there is no longer an obligation to provide those services.

Telephone and equipment sales are recognised as revenue once the customer obtains control of the good. That criteria is fulfilled when the customer has the ability to direct the use and obtain substantially all of the remaining benefits from that good.

Revenue from provision of Mobile Financial Services (MFS) is recognized once the primary service has been provided to the customer.

Customer premise equipment (CPE) are provided to customers as a prerequisite to receive the subscribed Home services and shall be returned at the end of the contract duration. Since CPEs provided over the contract term do not provide benefit to the customer on their own, they do not give rise to separate performance obligations and therefore are accounted for as part of the service provided to the customers.

Bundled offers are considered arrangements with multiple deliverables or elements, which can lead to the identification of separate performance obligations. Revenue is recognised in accordance with the transfer of goods or services to customers in an amount that reflects the relative standalone selling price of the performance obligation (e.g. sale of telecom services, revenue over time + sale of handset, revenue at a point in time).

Principal-Agent, some arrangements involve two or more unrelated parties that contribute to providing a specified good or service to a customer. In these instances, the Group determines whether it has promised to provide the specified good or service itself (as a principal) or to arrange for those specified goods or services to be provided by another party (as an agent). In cases the Group determines that it acts as a principal, revenue is recognized in the gross amount, whereas in cases the Group acts as an agent revenue is recognized in the net amount (i.e. provision payment).

2. SUMMARY OF CONSOLIDATION AND ACCOUNTING POLICIES (Continued)

Revenue from the sale of cables, fiber, wavelength or capacity contracts, when part of the ordinary activities of the operation, is recognized as recurring revenue. Revenue is recognized when the cable, fiber, wavelength or capacity has been delivered to the customer, based on the amount expected to be received from the customer.

Revenue from operating lease of tower space is recognized over the period of the underlying lease contracts. Finance leases revenue is apportioned between lease of tower space and interest income.

- IFRS 9 "Financial Instruments" addresses the classification, measurement and recognition and impairments of financial assets and financial liabilities as well as hedge accounting. It replaces the parts of IAS 39 that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortized cost. The determination is made at initial recognition. The classification depends on the Group's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. A final standard on hedging (excluding macro-hedging) has been issued in November 2013 which aligns hedge accounting more closely with risk management and allows to continue hedge accounting under IAS 39. IFRS 9 also clarifies the accounting for certain modifications and exchanges of financial liabilities measured at amortized cost.

The application of IFRS 9 did not have an impact for the Group on classification, measurement and recognition of financial assets and financial liabilities compared to IAS 39, but it has an impact on impairment of trade receivables and contracts assets (IFRS 15) as well as on amounts due from joint ventures and related parties – with the application of the expected credit loss model instead of the current incurred loss model. Similarly to IFRS 15 adoption, the Group adopted the standard using the cumulative catch-up transition method. Hence, the cumulative effect of initially applying the Standard has been recognized as an adjustment to the opening balance of retained earnings as at January 1, 2018 and comparative consolidated financial statements have not be restated in accordance with the transitional provisions in IFRS 9. The impact on the opening balance of retained earnings as at January 1, 2018 is summarised in the table set out at the bottom of this section. Additionally, the Group continues applying IAS 39 rules with respect to hedge accounting. Finally, the clarification introduced by IFRS 9 on the accounting for certain modifications and exchanges of financial liabilities measured at amortized cost did not have an impact for the Group.

<u>Financial Instruments accounting policies applied from January 1, 2018 should now read as follows:</u>

i) Equity and debt instruments

Classification

From January 1, 2018, the Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value [either through Other Comprehensive Income (OCI), or through profit or loss], and
- those to be measured at amortized cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

2. SUMMARY OF CONSOLIDATION AND ACCOUNTING POLICIES (Continued)

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

- Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains / (losses), together with foreign exchange gains and losses. Impairment losses are presented as a separate line item in the consolidated income statement.
- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in 'Other non-operating (expenses) income, net'. Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses and impairment expenses are presented as 'Other non-operating (expenses) income, net' in the consolidated income statement.
- FVPL: Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within 'Other non-operating (expenses) income, net' in the period in which it arises.

Equity instruments

The Group subsequently measures all equity investments at fair value. [The Group does not hold Equity instruments for trading.] Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Otherwise, changes in the fair value of financial assets at FVPL are recognised in 'Other non-operating (expenses) income, net' in the consolidated income statement as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment

From January 1, 2018, the Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortized cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the trade receivables.

The provision is recognized in the consolidated income statement within Cost of sales.

ii) Derivative financial instruments and hedging activities

The Group has opted to continue applying IAS 39 for hedge accounting. The accounting policy disclosed in the Group consolidated financial statements for the year ended December 31, 2017 remains therefore similar after IFRS 9 implementation.

The application of the following new standards or interpretations did not have an impact for the Group:

- Amendments to IFRS 2, 'Share based payments', on clarifying how to account for certain types of share-based payment transactions.
- Amendments to IFRS 4, 'Insurance contracts' regarding the implementation of IFRS 9, 'Financial instruments'.
- Annual improvements to IFRS Standards 2014–2016.

There are no other significant changes to standards effective for the annual period starting on January 1, 2018.

2. SUMMARY OF CONSOLIDATION AND ACCOUNTING POLICIES (Continued)

The application of IFRS 15 and IFRS 9 had the following impact on the Group financial statements as of January 1, 2018:

FINANCIAL POSITION $ millions	As at January 1, 2018 before application	Effect of adoption of IFRS 15	Effect of adoption of IFRS 9	As at January 1, 2018 after application	Reason for the change
ASSETS					
Investment in joint ventures (non-current)	2,967	27	(4)	2,989	*(i)*
Contract costs, net (non-current) **NEW**	—	4	—	4	*(ii)*
Deferred tax asset	180	—	10	191	*(viii)*
Other non-current assets	113	—	(1)	113	*(iii)*
Trade receivables, net (current)	386	—	(47)	339	*(iv)*
Contract asset, net (current) **NEW**	—	29	(1)	28	*(v)*
LIABILITIES					
Contract liabilities (current) **NEW**	—	51	—	51	*(vi)*
Provisions and other current liabilities (current)	425	(46)	—	379	*(vii)*
Deferred tax liability (non-current)	56	7	(1)	62	*(viii)*
EQUITY					
Retained profits	3,035	48	(38)	3,045	*(ix)*
Non-controlling interests	185	1	(5)	181	(ix)

(i) *Impact of application of IFRS 15 and IFRS 9 for our joint ventures in Guatemala, Honduras and Ghana.*
(ii) *This mainly represents commissions capitalised and amortized over the average contract term.*
(iii) *Effect of the application of the expected credit losses required by IFRS 9 on amounts due from joint ventures.*
(iv) *Effect of the application of the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.*
(v) *Contract asset mainly represents subsidised handsets as more revenue is recognised upfront while the cash will be received throughout the subscription period (which is usually between 12 to 36 months).*
(vi) *This mainly represents deferred revenue for goods and services not yet delivered to customers that will be recognised upon the goods are delivered and the services are provided to customers. The balance also comprises the revenue from the billing of subscription fees or 'one-time' fees at the inception of a contract that are deferred and will be recognised over the average customer retention period or the contract term.*
(vii) *Reclassification of deferred revenue to contract liabilities – see previous paragraph.*
(viii) *Tax effects of the above adjustments.*
(ix) *Cumulative catch-up effect.*

As of January 1, 2018, there is no impact on the statement of cash flows and on EPS.

The following summarises the amount by which each financial statement line item is affected in the current reporting period by the application of IFRS 15 as compared to previous standard and interpretations:

	For the six month period ended June 30, 2018			
INCOME STATEMENT **$ millions**	**As reported**	**Without adoption of IFRS 15**	**Effect of Change Higher/(Lower)**	**Reason for the change**
Total revenue	2,103	2,099	4	*(i)*
Cost of sales	(634)	(614)	(20)	*(ii)*
Operating expenses	(815)	(835)	20	*(ii)*
Share of profit in Guatemala and Honduras joint ventures	65	67	(1)	*(iii)*

2. SUMMARY OF CONSOLIDATION AND ACCOUNTING POLICIES (Continued)

	For the three month period ended June 30, 2018			
INCOME STATEMENT **$ millions**	**As reported**	**Without adoption of IFRS 15**	**Effect of Change Higher/(Lower)**	**Reason for the change**
Total revenue	1,061	1,059	2	*(i)*
Cost of sales	(327)	(317)	(10)	*(ii)*
Operating expenses	(406)	(416)	10	*(ii)*
Share of profit in Guatemala and Honduras, joint ventures	27	27	-	*(iii)*

(i) *Mainly for the shift in the timing of revenue recognition due to the reallocation of revenue from service (over time) to telephone and equipment revenue (point in time).*
(ii) *Mainly for the reallocation of cost for selling devices due to shift from service revenue to telephone and equipment revenue. Also for the capitalisation and amortization of contract costs.*
(iii) *Impact of IFRS 15 in our share of profit in our joint ventures in Guatemala and Honduras.*

	As at June 30, 2018			
FINANCIAL POSITION **$ millions**	**As reported**	**Without adoption of IFRS 15**	**Effect of Change Higher/(Lower)**	**Reason for the change**
ASSETS				
Investment in joint ventures (non-current)	2,825	2,800	25	*(iv)*
Contract costs, net (non-current)	4	-	4	*(v)*
Contract asset, net (current)	33	-	33	*(vi)*
LIABILITIES				
Contract liabilities (current)	59	-	59	*(vii)*
Provisions and other current liabilities (current)	402	455	(53)	*(viii)*
Deferred tax liability (non-current)	68	61	7	*(ix)*
EQUITY				
Retained profits	2,776	2,728	48	*(x)*
Non-controlling interests	181	180	1	*(x)*

(iv) *Impact of application of IFRS 15 for our joint ventures in Guatemala, Honduras and Ghana.*
(v) *This mainly represents commissions capitalised and amortized over the average contract term.*
(vi) *Contract asset mainly represents subsidised handsets as more revenue is recognised upfront while the cash will be received throughout the subscription period (which are usually between 12 to 36 months). Throughout the period ended June 30, 2018 no material impairment loss has been recognised.*
(vii) *This mainly represents deferred revenue for goods and services not yet delivered to customers that will be recognised when the goods are delivered and the services are provided to customers. The balance also comprises the revenue from the billing of subscription fees or 'one-time' fees at the inception of a contract that are deferred and will be recognised over the average customer retention period or the contract term.*
(viii) *Reclassification of deferred revenue to contract liabilities – see previous paragraph.*
(ix) *Tax effects of the above adjustments.*
(x) *Cumulative catch-up effect and IFRS 15 effect in the current period.*

The following Standard, which is expected to materially affect the Group, will be effective from January 1, 2019:

- IFRS 16 "Leases" will affect primarily the accounting for the Group's operating leases. As of December 31, 2017, the Group had operating lease commitments of $808 million. The Group has started the implementation of the new Standard and is currently assessing to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Group's profit and classification of cash flows. This said, the application of this standard will affect the Group's EBITDA, net debt and leverage ratios.

  As part of the IFRS 16 implementation process, the Group has already taken decisions on the following points:

  - IFRS 16 will be adopted using the modified retrospective approach,with the cumulative effect of adoption being recognised at the date of initial application (IFRS16.C5.b)
  - Non-lease components will be capitalised (IFRS16.15)
  - Intangible assets are out of IFRS 16 scope (IFRS16.4)

3. ACQUISITION AND DISPOSAL OF SUBSIDIARIES, JOINT VENTURES, ASSOCIATES AND OTHER NON-CONTROLLING INTERESTS

Acquisitions

During the six-month period ended June 30, 2018, Millicom did not complete any significant acquisitions.

4. DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE

Discontinued operations – Rwanda

On December 19, 2017, Millicom announced that it has signed an agreement for the sale of its Rwanda operations to subsidiaries of Bharti Airtel Limited. The total consideration of the transaction is approximately 6x 2017 adjusted EBITDA of the Rwandan operation,, payable over two years, consisting of a mix of cash, vendor loan note and earn out. The final sale consideration is still subject to adjustment under the terms of the sale and purchase agreement with Airtel. Management does not expect any material deviation from the initial consideration.

The Group received regulatory approvals on January 23, 2018 and the sale was subsequently completed on January 31, 2018. In accordance with Group practices, the Rwanda operations have been classified as assets held for sale and discontinued operations as from January 23, 2018 (restating the income statement comparative figures). On January 31, 2018, our operations in Rwanda have been deconsolidated and no material loss on disposal was recognized (its carrying value was aligned to its fair value less costs of disposal as of December 31, 2017). However, a loss of $32 million has been recognized in Q1 2018 corresponding to the recycling of foreign currency exchange losses accumulated in equity since the creation of the local operation. This loss has been recognized under 'Profit (loss) for the year from discontinued operations, net of tax'.

Discontinued operations – Senegal

On July 28, 2017, Millicom announced that it had agreed to sell its Senegal business to a consortium consisting of NJJ, Sofima (a telecom investment entity managed by the Axian Group (together 'the Consortium') and Teylium Group, subject to customary closing conditions and regulatory approvals. On April 19, 2018, the President of Senegal issued an approval decree in respect of the proposed sale by Millicom of its Tigo operation in Senegal to the Consortium and Teylium Group. The sale completed on April 27, 2018 and our operations in Senegal have been deconsolidated resulting in a net gain on disposal of $6 million, including the the recycling of foreign currency exchange losses accumulated in equity since the creation of the local operations. This gain has been recognized under 'Profit (loss) for the year from discontinued operations, net of tax'. The final sale consideration is still subject to adjustment under the terms of the sale and purchase agreement with the consortium. Management does not expect any material deviation from the initial consideration.

In accordance with IFRS 5, the Group's businesses in Rwanda (Q1 2018), Ghana (Q3 2017) and Senegal (Q1 2017) had been classified as assets held for sale and their results were classified as discontinued operations. Comparative figures of the income statement have been represented accordingly. Financial information relating to the discontinued operations for the three and six-month periods ended June 30, 2018 and 2017 are set out below. Figures shown below are after inter-company eliminations.

Results from Discontinued Operations ($ millions)	Six months ended June 30, 2018	Six months ended June 30, 2017
Revenue	62	163
Cost of sales	(23)	(50)
Operating expenses	(26)	(73)
Other expenses linked to the disposal of discontinued operations	(7)	(2)
Depreciation and amortization	—	(23)

Net assets / book value	**46**

Senegal

The assets and liabilities deconsolidated on the date of the disposal were as follows:

Assets and liabilities reclassified as held for sale – Senegal ($ millions)	April 27, 2018
Intangible assets, net	40
Property, plant and equipment, net	126
Other non-current assets	2
Current assets	56
Cash and cash equivalents	3
Total assets of disposal group held for sale	**227**
Non-current financial liabilities	8
Current liabilities	73
Total liabilities of disposal group held for sale	**81**
Net assets held for sale / book value	**146**

Tower Sale and Leasebacks

In 2017 and 2018, the Group announced agreements to sell and leaseback wireless communications towers in Paraguay, Colombia and El Salvador to subsidiaries of American Tower Corporation ("ATC") and SBA Communications whereby Millicom agreed to the cash sale of tower assets and to lease back a dedicated portion of each tower to locate its network equipment. The portions of the assets that will be transferred and that will not be leased back by the Group's operations are classified as assets held for sale as completion of their sale is highly probable.

The table below summarises the main aspects of these deals and impacts on the Group financial statements:

	Paraguay	Colombia	El Salvador
Signature date	April 26, 2017	July 18, 2017	February 6, 2018
Total number of towers expected to be sold	1,410	1,207	811
Total number of towers transferred to June 30th, 2018	1,266	772	—
Expected total cash proceeds ($ millions)	125	147	145
Cash proceeds for the year 2017 ($ millions)	75	86	—
Cash proceeds for the year 2018 ($ millions) – as of June 30	39	10	—
Upfront gain on sale recognized for the year 2017 ($ millions)	26	37	—
Upfront gain on sale recognized for the year 2018 ($ millions) – as of June 30	15	3	—

5. SEGMENT INFORMATION

Millicom presents segmental information based on its two geographical regions (Latin America and Africa) and the figures below include Honduras and Guatemala as if they are fully consolidated by the Group. This presentation considers both the materiality and strategic importance of these operations for the Group, and it reflects the way management reviews and uses internally reported information to make decisions about operating matters. Honduras and Guatemala are shown under the Latin America segment. However, given its smaller size and lower strategic importance to the Group, the joint venture in Ghana is not reported as if fully consolidated and is therefore not included in the numbers below. As from January 1, 2018, the Group is including in its segment EBITDA inter-company management fees and share-based incentive compensation paid to local management teams. These items, were previously included in unallocated corporate costs. This change in presentation has no impact on Group level EBITDA. Revenue, operating profit (loss), EBITDA and other segment information for the three and six-month periods ended June 30, 2018 and 2017 were as follows:

Six-month period ended June 30, 2018 ($ millions) ***(ix)***	**Latin America**	**Africa**	**Unallo -cated**	**Total (a)**	**Guatemala and Honduras (vii) (b)**	**Eliminations and transfers (c)**	**Sub-Total (a)+(b)+(c)**	**Disc Ops (viii)**	**Total**

(i) *Service revenue is Group revenue related to the provision of ongoing services such as monthly subscription fees, airtime and data usage fees, interconnection fees, roaming fees, mobile finance service commissions and fees from other telecommunications services such as data services, short message services and other value-added services excluding telephone and equipment sales. Revenues from other sources comprises rental, sub-lease rental income and other non recurrent revenues. The Group derives revenue from the transfer of goods and services over time and at a point in time. Refer to table below.*

(ii) *EBITDA is used by the management to monitor the segmental performance and for capital management. EBITDA is defined in the Group's 2017 Annual Report.*

(iii) *Excluding spectrum and licenses of $52 million (2017: $18 million) and cash received on tower deals of $50 million (2017: nil).*

(iv) *'Changes in working capital and others' include changes in working capital as stated in the cash flow statement as well as share based payments expense.*

(v) *Operating Free Cash Flow is EBITDA less capex (excluding spectrum and license costs) less change in working capital, other non-cash items (share-based payment expense) and taxes paid.*

(vi) *Segment assets include goodwill and other intangible assets.*

(vii) *Including eliminations for Guatemala and Honduras as reported in the Latin America segment.*

(viii) *See note 4. DRC, Senegal, Ghana and Rwanda operations were part of the Africa segment.*

(ix) *Restated as a result of the completion of the fair value measurements of our investments in Guatemala and Honduras joint ventures and of the classification of our operations in Senegal as discontinued operations (see notes 4 and 14).*

8. PROPERTY, PLANT AND EQUIPMENT

During the six-month period ended June 30, 2018, Millicom added property, plant and equipment for $273 million (June 30, 2017: $278 million) and received $52 million in cash from disposal of property, plant and equipment (June 30, 2017: $3 million).

9. INTANGIBLE ASSETS

During the six-month period ended June 30, 2018, Millicom added intangible assets of $87 million (June 30, 2017: $37 million) and did not receive any proceeds from disposal of intangible assets (June 30, 2017: $1 million).

10. DEBT AND FINANCING

El Salvador

In January 2018, Telemovil El Salvador entered into an amended and restated agreement with Scotiabank to add an additional $50 million variable rate loan, with a 5-year bullet repayment.

In March 2018,Telemovil El Salvador entered into a $100 million variable rate facility with DNB and Nordea with a 5-year bullet repayment. $50 million remain undisbursed as of June 30, 2018. In addition, Telemovil El Salvador entered into an interest rate swap with Scotiabank to fix interest rates for up to $100 million of the outstanding debt.

Costa Rica

In April 2018, Millicom Cable Costa Rica S.A. entered into a $150 million variable rate loan with Citibank as agent.. Simultaneously, the outstanding loan balance of $72 million was repaid in full with the proceeds from such loan.

In June 2018, Millicom Cable Costa Rica S.A. entered into a cross currency swap to hedge part of the principal of the loan against interest rate and currency risks. As of the end of the second quarter, interest rate and currency swap agreements had been made on $35 million of the principal amount and interest rate swaps for an additional $40 million.

Colombia

In March 2018, TigoUne prepaid $34 million equivalent in COP on bank financing debt.

Paraguay

In June 2018, Telecel Paraguay entered into a $15 million fixed rate loan equivalent in Guaranies with Banco Continental.

Bolivia

In April 2018, Telecel Bolivia entered into a $10 million fixed rate loan equivalent in Bolivianos with Banco Bisa.

In April 2018, Telecel Bolivia entered into a $10 million fixed rate loan equivalent in Bolivianos with Banco Mercantil.

MICSA

In January 2018, the Company repaid $25 million of an outstanding debt facility with DNB and Nordea.

Rwanda

In January 2018, the Group repaid the remaining $40 million loan with DNB and Nordea.

Senegal

In 2013, a Millicom holding entered into an agreement with a bank, whereby the bank provided loans amounting to EUR134 million to the Senegal operation with a maturity date in 2020. Simultaneously, Millicom deposited the same amount with the bank. In January 2018, this back-to-back agreement has been unwound and all loans reimbursed.

In 2015, the Senegal operation entered into a $24 million ECA facility guaranteed by Millicom of which $13 million remained outstanding at year end 2017 and the remaining amount was fully repaid in February 2018.

Analysis of debt and other financing by maturity

The total amount of debt and financing is repayable as follows:

$ millions	As at June 30, 2018	As at December 31, 2017
Due within:		
One year	351	185
One-two years	281	500
Two-three years	252	347
Three-four years	319	431
Four-five years	888	584
After five years	1,754	1,738
Total debt	**3,846**	**3,785**

10. DEBT AND FINANCING (Continued)

As at June 30, 2018, the Group's share of total debt and financing secured by either pledged assets, pledged deposits issued to cover letters of credit or guarantees issued was $843 million (December 31, 2017: $671 million). Assets pledged by the Group for these debts and financings amounted to $1 million at June 30, 2018 (December 31, 2017: $1 million).

Analysis of debt and other financing by maturity

The table below describes the outstanding and maximum exposure under these guarantees and the remaining terms of the guarantees as at June 30, 2018 and December 31, 2017.

	Bank and financing guarantees (i)			
$ millions	**As at June 30, 2018**		**As at December 31, 2017**	
Terms	**Outstanding exposure**	**Theoretical maximum exposure**	**Outstanding exposure**	**Theoretical maximum exposure**
0-1 year	151	151	159	159
1-3 years	367	367	368	368
3-5 years	325	325	144	144
More than 5 years	1	1	—	—
Total	**843**	**843**	**671**	**671**

(i) If non-payment by the obligor, the guarantee ensures payment of outstanding amounts by the Group's guarantor.

Interest expense on finance leases	(23)	(15)
Early redemption charges	—	(15)
Other	(11)	(5)
Total	**(89)**	**(103)**

11. COMMITMENTS AND CONTINGENCIES

Litigation & claims

The Company and its operations are contingently liable with respect to lawsuits, legal, regulatory, commercial and other legal risks that arise in the normal course of business. As of June 30, 2018, the total amount of claims and litigation risks against Millicom and its operations was $433 million, of which $5 million related to its share in joint ventures (December 31, 2017: $438 million, of which $5 million related to its share in joint ventures).

As at June 30, 2018, $24 million, of which $2 million related to its share in joint ventures (December 31, 2017: $29 million, of which $2 million related to its share in joint ventures), has been provided for these risks in the consolidated statement of financial position. While it is not possible to ascertain the ultimate legal and financial liability with respect to these claims and risks, the ultimate outcome is not anticipated to have a material effect on the Group's financial position and operations.

Improper filling of shareholding in Millicom Tanzania Ltd

In June 2016, Millicom was served with claims by a third party seeking to exert rights as a shareholder of Millicom Tanzania Ltd (Tigo Tanzania). In June 2015, Millicom identified that an incorrect filing related to Tigo Tanzania had been made in the commercial register, causing the register to incorrectly indicate that shares in the local subsidiary were owned by this third party. Millicom remains engaged in legal proceedings regarding this issue. Millicom believes that these claims are entirely without merit and, moreover, maintains that there is no valid basis whatsoever for any third party to claim any interest in Tigo Tanzania nor to be registered as one of its shareholders. Millicom continues to operate and fully consolidate Tigo Tanzania, and no provision has been recorded in relation to this claim.

Potential improper payments on behalf of the Guatemala joint venture

In October 2015, Millicom voluntarily reported to the U.S. Department of Justice potential improper payments made on behalf of the Company's joint venture in Guatemala and, since then, has cooperated fully with the Justice Department's investigation. On April 23, 2018, the US Justice Department informed Millicom that it is closing its investigation.

Ongoing investigation by the International Commission Against Impunity in Guatemala (CICIG)

On July 14, 2017, the CICIG disclosed an ongoing investigation into alleged illegal campaign financing that includes a competitor of Comcel, our Guatemalan joint venture. The CICIG further indicated that the investigation would include Comcel. On November 23 and 24, 2017, Guatemala's attorney general and CICIG executed search warrants on the offices of Comcel. As at June 30, 2018, the matter is still under investigation, and Management has not been able to assess the potential impact on these interim condensed consolidated financial statements of any remedial actions that may need to be taken as a result of the investigations, or penalties that may be imposed by law enforcement authorities. Accordingly, no provision has been recorded as of June 30, 2018.

Taxation

At June 30, 2018, the Group estimates potential tax claims amounting to $282 million. Tax risks amounting to $47 million have been assessed as probable and recorded as tax provisions (December 31, 2017: claims amounting to $313 million and provisions of $53 million). Out of these potential claims and provisions, respectively $47 million and $2 million relate to Millicom's share in joint ventures (December 31, 2017: claims amounting to $38 million and provisions of $2 million).

Capital commitments

At June 30, 2018, the Company and its subsidiaries and joint ventures had fixed commitments to purchase network equipment, land and buildings, other fixed assets and intangible assets of $265 million of which $191 million are due within one year (December 31, 2017: $194 million of which $182 million are due within one year). Out of these commitments, respectively $55 million and $49 million related to Millicom's share in joint ventures (December 31, 2017: $25 million and $23 million).

$ millions	Carrying Value		Fair Value (i)	
	June 30, 2018	December 31, 2017	June 30, 2018	December 31, 2017
Financial liabilities				
Debt and financing	3,846	3,785	3,919	3,971

(i) Fair values are measured with reference to Level 1 (for listed bonds) or 2.

Currency and interest rate swap contracts

Interest rate and currency swaps on SEK denominated debt

These swaps matured in April 2018 and were settled against a cash payment of $63 million.

Interest rate and currency swaps on SEK denominated debt were measured with reference to Level 2 of the fair value hierarchy.

No other financial instruments have a significant fair value at June 30, 2018.

14. INVESTMENTS IN JOINT VENTURES

The table below summarises the movements for the year in respect of the material Group's joint ventures carrying values in Guatemala, Honduras and Ghana:

$ millions	Guatemala	2018 Honduras	Ghana (i)
Opening balance at January 1, 2018	**2,145**	**726**	**96**
Adjustment on adoption of IFRS 15 and IFRS 9 (net of tax)	18	5	—
Results for the period	63	2	(33)
Dividends declared during the period	(177)	—	—
Currency exchange differences	(6)	(14)	—
Closing balance at June 30, 2018	**2,043**	**719**	**63**

(i) The Group share of loss from our joint venture in Ghana is disclosed under 'Income (loss) from other joint ventures and associates, net' in the income statement.

15. IPO – MILLICOM'S OPERATIONS IN TANZANIA

In June 2016, an amendment to the Electronic and Postal Communications Act ("EPOCA") in the Finance Act 2016 required all Tanzanian licensed telecom operators to sell 25% of the authorised share capital in a public offering on the Dar Es Salaam Stock Exchange by December 31, 2016. As of June 30, 2018, only one company had completed a public offering. In early 2017, Tigo Tanzania, Zantel and Telesis each received from the Tanzanian Communications Regulatory Authority ("TCRA") a notice of material breach of the license giving thirty-days to comply. Millicom has signaled its intention for its subsidiaries to comply with the law and list its businesses but did not complete the public offerings by such time and will not be able to do so until the incorrect filing related to Tigo Tanzania made in the commercial register are corrected (see Note 11). Accordingly, Millicom's businesses in Tanzania may face sanctions from the regulator or other government bodies, which could include financial penalties, or even suspension or cancellation of its license although to-date there has been no notification from the TCRA of any indication or intention to proceed with sanctions. Management is currently not able to assess the financial impact on its consolidated financial statements (although the Company deems the suspension or cancellation of the license to be unlikely) and therefore no provision has been recorded as of June 30, 2018.

16. SUBSEQUENT EVENTS

SEK bond

On July 19, 2018, Millicom announced that it has exercised its option to redeem our SEK 2,000,000,000 Senior Unsecured Floating Rate Notes due 2019 at a price equal to 101.45% of the nominal amount plus accrued and unpaid interest. The Redemption Date will be August 9, 2018, and the Record Date will be August 2, 2018.

U.S. Listing

We are announcing today plans to register with the U.S. Securities and Exchange Commission and to list our common shares on a U.S. stock exchange, while also maintaining our current listing on Nasdaq Stockholm, where our shares currently trade in the form of Swedish Depository Receipts.
